8 kilograms is the same as
how many grams?

8000 g

3 kilograms is the same as
how many grams?

3000 g

20 kilograms is the same
as how many grams?

20000 g

12 kilograms is the same
as how many grams?

12000 g

11 kilograms is the same
as how many grams?

11000 g

7 kilograms is the same as
how many grams?

7000 g

6 kilograms is the same as
how many grams?

6000 g

9 kilograms is the same as
how many grams?

9000 g

16 kilograms is the same
as how many grams?

16000 g

15 kilograms is the same
as how many grams?

15000 g

2 kilograms is the same as
how many grams?

2000 g

13 kilograms is the same
as how many grams?

13000 g

14 kilograms is the same
as how many grams?

14000 g

5 kilograms is the same as
how many grams?

5000 g

18 kilograms is the same
as how many grams?

18000 g

17 kilograms is the same
as how many grams?

17000 g

19 kilograms is the same
as how many grams?

19000 g

10 kilograms is the same
as how many grams?

10000 g

13 kilograms is the same
as how many grams? 13000 g

12 kilograms is the same
as how many grams? 12000 g

2 kilograms is the same as
how many grams? 2000 g

4 kilograms is the same as
how many grams? 4000 g

15 kilograms is the same
as how many grams? 15000 g

10 kilograms is the same
as how many grams? 10000 g

17 kilograms is the same
as how many grams? 17000 g

14 kilograms is the same
as how many grams? 14000 g

6 kilograms is the same as
how many grams? 6000 g

8 kilograms is the same as
how many grams? 8000 g

3 kilograms is the same as
how many grams? 3000 g

11 kilograms is the same
as how many grams? 11000 g

20 kilograms is the same
as how many grams? 20000 g

5 kilograms is the same as
how many grams? 5000 g

9 kilograms is the same as
how many grams? 9000 g

16 kilograms is the same
as how many grams? 16000 g

7 kilograms is the same as
how many grams? 7000 g

18 kilograms is the same
as how many grams? 18000 g

19 kilograms is the same
as how many grams? 19000 g

17 kilograms is the same
as how many grams? 17000 g

11 kilograms is the same
as how many grams?
